

SavePro MAX

SPIRAL INDUSTRIAL VENDING MACHINE

The SavePro MAX vending machine offers a complex solution during inventory management processes. We recommend SavePro MAX for companies where a wide variety of products and safety equipments are used. The tools are easy to access, their usage can be tracked and they are available 24 hours a day. Cost reduction is achieved quickly, our SaveLog Smart software makes accurate search and filtering options visible with easy-to-integrate individual functions and complex product management.

Why to choose SavePro MAX?

- Track the product usage and achieve up to a 100% cost control
- Up to 10 vending machines can be grouped together using a single software
- Grants personal access rights per product or project
- Ensures product distribution 24 hours a day, seven days a week
- Easy to use and communicates in multiple languages
- Automatically reports and notifies management and equipment maintainers
- High level of security and ease of use with T-handle lock and master key system
- Easy serviceing and refilling process
- Can be extended with SaveBox and SaveReTurn units
- Contains numerous configuration options and multilingual user interface
